Subject: From Board Chair Jane Krites - Meeting the challenge

This was sent to me to forward to all of you, by our Board of Trustees Chair, Jane Krites.

=====

Dear Faculty and Staff,

Rhodes is facing some unusual challenges as we respond to COVID-19 concerns and the stress this places on serving our students. I realize that I only understand a small scope of the challenge. However, I am realizing how fortunate we are to have a group of quality professionals working in all departments that are making it possible for the necessary things to happen. I also know it is affecting all of you and changing the ways you are currently approaching your workday.

I understand there has been some “break through” creative ideas, increased teamwork, increased online class availability, people showing impressive leadership skills and an overall “we can do this” attitude” being exhibited! Whatever role you are playing—**THANK-YOU**. It takes ALL of us to keep RHODES STRONG!

Sincerely,

Jane Krites
Board, Chair
