

SPRING 2019 LECTURE SERIES

Careers in Mathematics: What can you do with a Math Degree?

Cheryl Grant
Department of Mathematics

Thursday, March 28th @ 10:00-11:00
Science Building, Room 211

One of the biggest misconceptions about mathematics is that it only leads to a career in Math Education. Because of its problem solving and critical thinking skills, the study of mathematics is an exciting way to prepare for a variety of careers. Join us as we explore several interesting math related positions. And, bring your graphing calculator as we will decipher a secret message!
